COMBINED COLOR SPACE MATRIX TRANSFORMATION AND FIR FILTER

ABSTRACT OF THE DISCLOSURE

10

The same circuitry is used for effecting FIR filtering and color space transformation. The input to a multiply-add array of a conventional FIR filter is appropriately multiplexed to provide the alternative uses of the same multiply-add array. In this manner, for example, the same multiply-add array can be used for scaling an image and for transforming the image from one color space to another.
